Employment

2006-Present

Digital Imaging Specialist
Niche Media LLC

As a key imaging specialist, I photo retouch and color correct all of Niche Media's publications. Working with the creative director and associate art directors, I help establish aesthetic standards.

While at Niche Media, images I receive from photographers are rarely "press ready," so it's my responsibility to digitally enhance or re-render the image. This includes removing or fixing imperfections, enhancing light and shadow on flatly lit photos and re-rendering missing sections of an image.

Freelance
